

iLearn

iPhone and iPad Basics

TCC Technology Seminar

Monday, March 25 | 5:30 p.m.

Learn to:

- Identify controls and other functions including Siri and dictation
- Describe the benefits and drawbacks of the cloud, including iCloud
- Set up and manage multiple email and calendar accounts
- Troubleshoot common issues
- Download and organize apps, music, movies, classes and books from the Apple store
- Use the cameras for pictures, video and FaceTime

*Taught by **Dr. Gabrielle K. Gabrielli**, former West Point computer sciences professor*
